Your programme decision guide

Titans Careers Limited | Professional training

1. Start with the work you want to do

Which discipline interests you? What do you want to understand or practise?
List the skills you want to develop, without assuming a job outcome.

2. Compare the learning

Read the curriculum, practical exercises and assessment arrangements.
Ask which tools, project outputs and career support are actually included.

3. Confirm the people and delivery

Request the instructor profile, teaching format and session timetable.
Check access arrangements, entry expectations and support options.

4. Understand the commitment

Confirm the fee, next cohort and availability directly with Titans.
Ask about payment terms, any agreed instalments and cancellation terms.

5. Make your next step specific

Compare programmes or book a consultation to discuss suitability.
An interest request does not reserve a place or confirm payment.
